

15TH
GLOBELICS
INTERNATIONAL
CONFERENCE

11th – 13th October 2017, Athens, Greece

GLOBELICS ATHENS 2017

INNOVATION AND CAPACITY BUILDING IN THE CONTEXT OF
FINANCIALISATION AND UNEVEN DEVELOPMENT OF THE GLOBAL ECONOMY:
NEW ROLES FOR THE STATE, PRODUCTIVE SECTOR, AND SOCIAL ACTORS

GLOBELICS 2017

1st CALL FOR PAPERS

Organized by:

Laboratory of Industrial and Energy Economics

National Technical University of Athens

Important dates

Deadline for submission of papers	April 30, 2017
Acceptance notification	June 14, 2017
Deadline for application for travel support	April 30, 2017
Response to applicants for travel support	June 14, 2017
Conference registration deadline	July 14, 2017
Last date for upload of final version of paper	September 15, 2017

The Globelics International Conference 2017

The 15th Globelics Conference will be held in Athens, Greece. It will be hosted by the Laboratory of Industrial and Energy Economics (LIEE) at the National Technical University of Athens (NTUA), the oldest (established in 1837) and most prestigious Greek academic institution in the field of Technology and Engineering.

Athens will be the first European city to host the Globelics Annual Conference. This was considered as an opportunity to highlight the challenges for a country hit by the recent economic crisis. Innovation and competence building in the context of industrial and institutional change can be of great importance when envisaging a strategy out of the crisis.

The conference will combine plenary sessions, presentations of research papers in parallel tracks, thematic panel sessions or special sessions, poster presentations, a book presentation session and debate, exhibition on industrial research in Greece, innovative start-ups presentations, sightseeing and cultural events, as well as artistic and culinary exhibitions.

Background

Globelics is a worldwide network of more than 2000 scholars engaged in research on how innovation and competence building contribute to economic and sustainable development. The network is open and diverse in terms of disciplines, perspectives and research tools. Globelics is a platform for cooperation and interactive learning.

It was conceived at the very beginning of the new millennium. Inspired by the work of Christopher Freeman and Richard Nelson, the network was initially built on conversations among scholars in the South and in the North and developed by economists and experts on innovation systems. Over time the network has integrated expertise from a wider social science background and experts on broader aspects of development.

One of its main activities is the Annual Globelics Conference, which brings together over 400 leading and young scholars from all over the world. The Conference also aims at building research capacity and orienting research toward the local challenges of the host country.

Conference Theme

The main conference theme for Globelics 2017 is innovation and capacity building in the context of financialisation and uneven development of the global economy: new roles for the state, productive sector, and social actors.

The conference invites papers addressing the role of different types of actors such as the State, local authorities, continental entities, knowledge institutions, productive political and social actors in shaping innovation and capacity building so as to achieve sustainable and inclusive growth. In particular, it aims to explore whether we need new approaches to study inequality in the age of globalization as there are widening disparities within countries, regions and social classes. The conference will also consider the need to tackle new challenges related to innovation and capacity building in addition to our systems of innovation approach. The conference also welcomes papers studying how systems of policies can be implemented at different levels and across different countries to innovate out of the crisis.

Conference Tracks

Accepted papers will be organized around parallel paper tracks encompassing:

1. University relationships with industry and society: the developmental university
2. Indigenous knowledge, informal sector, innovation and development
3. Gender, innovation and development
4. Science, technology, innovation policy and development
5. Intellectual property rights, open innovation and development
6. National, continental and regional innovation system
7. Technological infrastructure and technological capabilities
8. Sectoral innovation system, systemic industrial policy and development
9. Innovation systems, networks, global value chains and foreign direct investments
10. Entrepreneurship and innovation management in companies, organizations, government and local authorities
11. Agricultural innovation system
12. Science, technology, innovation and the sustainable development goals
13. Creative industries, smart cities and economic development
14. Innovation, financialization and the global crisis: what kind of policies and strategies are needed?
15. Innovation studies: Empirical methodologies, data requirements, indicators, different approaches and methodologies

Paper submission

We encourage scholars at scientific institutions, universities, enterprises and public sector institutions to take this opportunity to present their work to leading scholars in the field of innovation and development. We especially encourage young researchers to submit papers.

Papers for oral presentations and poster presentation must be written in English, and the selected ones must be presented at the conference in English. Submission of full paper (in PDF) not exceeding 12,000 words (including notes, tables, appendices, list of references, etc.) should be made from 1st until 30th April 2017 via the online submission form available at the Conference website: liee.ntua.gr/globelics2017.

Papers must be submitted no later than April 30, 2017.

The selection of papers is based on a peer review process that focuses on relevance, academic quality and originality. Globelics reserves the right to use available software to control for plagiarism and to take appropriate action in such cases.

Travel support

Faculty members and PhD students from developing countries with accepted papers to the conference can apply for travel support. Application for travel support must be submitted at the same time as submission of paper. Further information on procedure for application of travel support will be available on the conference website.

Local Organizing Committee

Yannis Caloghirou, Professor NTUA, Director of LIEE, Head of the Committee

Danae Diakoulaki, Professor NTUA,

Aggelos Tsakanikas, Asst. Professor NTUA

Dr. Aimilia Protogerou, Senior Researcher

Dr. Ioanna Kastelli, Senior Researcher

Dr. Evangelos Siokas, Post-Doc Researcher

Dr. Nikolaos Kanellos, Post-Doc Researcher

Panagiotis Panagiotopoulos, PhD Candidate

Georgios Siokas, PhD Candidate

Eliza Stathaki, Chemical Engineer

Local Advisory Committee

To be appointed

Globelics Secretariat

José Cassiolato

Marina Szapiro

Marcelo Matos

Maria Gabriela Podcameni

Max Hubert Santos

João Marcos Hausmann Tavares

Manuel Gonzalo

Israel Sanches

Cecilia Tomassini

Scientific Committee

José Cassiolato, Globelics Secretariat, Universidade Federal do Rio de Janeiro, Brazil

Bengt-Åke Lundvall, Aalborg University, Denmark

Judith Sutz, Scientific Research Council of the University de la República, Uruguay

Yannis Caloghirou, National Technical University of Athens, Greece

Franco Malerba, Bocconi University, Italy

Gabriela Dutrenit, Universidad Autónoma Metropolitana, México

K.J. Joseph, Centre for Development Studies (CDS), India

Margrethe Holm Andersen, Aalborg University, Denmark

Rajah Rasiah, University of Malaya, Malaysia

Rasmus Lema, Aalborg University, Denmark

Slavo Radošević, University College London, United Kingdom
